Crown Partners, LLC and DoubleBridge Technologies Team Up in China

Crown Partners announced today a new strategic reseller partnership with one of China's software development and implementation providers, DoubleBridge Technologies, Inc. An auspicious move for both companies, the partnership provides Dayton, Ohio-based Crown Partners with greater exposure in an increasingly active and lucrative Asian market. The reseller agreement was created at the recent EMC Documentum User Meeting in New York, where Crown representatives provided training to key members of the ChinaSoft staff on Crown Partners' products.

DoubleBridge Practice Director, Hank Wei, said, "We are impressed with Crown's products and are pleased to be reselling Crown Partners' products through our software connection, ChinaSoft International."

Director of European Operations for Crown Partners, Ernst Lange, stated, "Crown Partners is very pleased to bring our products and services to this region through ChinaSoft Technologies," adding, "the move assists Crown in continuing to build a global network of resellers working closely together for their customers' success."
