Crown Partners named to Software Magazines World 500

Software Magazine ranks Crown Partners among its 2009 Largest Software Suppliers List

Dayton, Ohio. September 22, 2009: Crown Partners, LLC announced today its inclusion on the Software Magazine's Software 500 ranking of the world's largest software and service providers. This is Crown's 2nd year listed in this prestigious publication. "The listing is a real honor that belongs to our whole company," said Hearn, adding "it's especially rewarding when you consider that Crown is a privately held, self funded company." Crown Partners was ranked number 365.

"The Software 500 helps CIOs, senior IT managers and IT staff research and create the short list of business partners," states John P. Desmond, editor of Software Magazine and Softwaremag.com. "It is a quick reference of vendor viability. And the online version to be posted soon at www.Softwaremag.com is searchable by category, making it what we call the online catalog to enterprise software."

The Software 500 is a revenue-based ranking of the world's largest software and services suppliers targeting medium to large enterprises, their IT professionals, software developers and business managers involved in software and services purchasing.

About Crown Partners
